## “Training pupils for Energy Analysis in sCHool buildings”<sup>Two</sup>

fostering the adoption of a methodology of energy analysis within school buildings in cooperation with European students.

### Expected results

- 2.500 students involved
- 150 teachers
- 50 energy balances in European schools
- at least 150 families concerned
- 50 labs in Italy, Greece and Latvia

## TEACH Two

“Teach Two” a project sponsored by the “Leonardo da Vinci” programme

[Www.teach2project.eu](http://www.teach2project.eu)

**TEACH Two** promuove la diffusione di un'analisi energetica partecipata degli edifici scolastici in Europa. Destinatari dell'azione sono i docenti, il personale scolastico, gli studenti, le famiglie, gli enti gestori.

Alle scuole coinvolte vengono forniti strumenti concreti per l'analisi, la valutazione ed il risanamento energetico dei loro edifici. Obiettivo di Teach Two è l'innalzamento della consapevolezza e l'introduzione di modelli di gestione sostenibile dell'energia tra le giovani generazioni.

**TEACH Two** mērķis ir veicināt jauniešu izpratni un pilnveidot zināšanas par energoresursu izmantošanas principiem Eiropas skolās un ilgspējīgiem energoefektivitātes modeļiem.

Projekta mērķauditorija ir skolēni, skolotāji, skolu darbinieki, skolēnu ģimenes un vietējās pašvaldības. Projektā iesaistītās skolas mācīsies veikt savas skolas ēkas energoefektivitātes analīzi, sagatavot novērtējumu un priekšlikumus enerģijas efektīvākai izmantošanai, pielietojot dažādas metodes un rīkus.i.

Το πρόγραμμα **TEACH Two** προωθεί τη διάδοση μίας συμμετοχικής Ενεργειακής ανάλυσης των σχολικών κτιρίων στην Ευρώπη. Οι δικαιούχοι του προγράμματος είναι εκπαιδευτικοί, το προσωπικό του σχολείου, μαθητές, οικογένειες, διαχειριστικές αρχές. Συγκεκριμένα εργαλεία παρέχονται στα εμπλεκόμενα σχολεία για την ανάλυση, την αξιολόγηση και την αποκατάσταση των κτιρίων τους. Στόχος του TEACH TWO είναι να ευαισθητοποιήσει τους νέους και να εισάγει βιώσιμα μοντέλα ενεργειακής διαχείρισης μεταξύ των νέων.

## TEACH Two Training pupils for Energy Analysis in sCHool buildings

**TEACH Two** project promotes the spread of a participated energy analysis within European school buildings.

The project will involve teachers, school staff, pupils and their families, schools and Institutions.

The participating schools will be provided with practical instruments for the analysis, the evaluation and the energy recovery of their buildings.

Teach Two project aims at fostering awareness and at introducing models of sustainable energy management among young people.

Three analysis and evaluation tests

### - PERCEPTIVE EVALUATION

Preliminary phase of indoor comfort analysis.

### - CRITICAL EVALUATION

Intermediate phase of school energy management analysis.

### - ANALYTIC EVALUATION

Final phase of actual realization of energy balance.

### FINAL REPORT

Evaluation synthesis and identification of possible improvement energy strategies
